

# NORAN NEUROLOGICAL CLINIC

## Parkinson's Disease & Deep Brain Stimulation

### Life-Enhancing Advances in Symptom Control

You're invited to attend a special educational event to hear how advances in the treatment of Parkinson's disease are making a difference in people's lives. An expert neurologist and a neurosurgeon will present medical and surgical information on Deep Brain Stimulation, a surgical option that can minimize the difficult symptoms of Parkinson's disease. Patients will share how their lives have been enhanced by this treatment. This compelling presentation is intended to enlighten and encourage all who are touched by Parkinson's disease.

**DATE:** Tuesday, October 3, 2017

**TIME:** 5:30 PM - Registration  
6-7:30 PM - Presentation

**PLACE:** Minneapolis Marriott Northwest  
Fireside Room  
7025 Northland Drive N.  
Brooklyn Park, MN 55428

#### PRESENTERS:

Eleanor Orehek, M.D., Neurologist, Noran Neurological Clinic

Kyle Nelson, M.D., Neurosurgeon, Metropolitan Neurosurgery
